

BLUEBALE

SUPERIOR FORAGES (NEW)

ALL OATS, WHEATS AND BARLEYS USED IN SUPERIOR FORAGES ARE PROVEN TO HAVE RUST AND DISEASE RESISTANCE. IMPROVING YEILD AND QUALITY

Baglietto Seeds has been serving California's Dairy and Farming families for 50 years. Our company has been successful due to our valuable customers and their confidence in us to provide them with outstanding service, excellent knowledge in new and current genetics and last but not least having the capability to specifically customize each and every customers individuals wishes and needs.

Note: In our 50 years of experience there hasn't been a single small grain that the consumer could plant that would out perform our Custom blends and Superior forages, in forage yield and quality. In a side by side comparison, same dirt, water , herbicide and pesticide. You would be amazed, that our statement is true ! Let us prove it to you.

- COVERCROP (SPECIAL BLENDS)
- UC 113 (PVP) Superior forage
- UC 128 (PVP) Superior hay & forage
- UC 148 (PVP) Superior hay & forage

LASSIK– Hard red spring wheat, Lassik was developed by UC Davis as a replacement for Anza and is resistant to known rust spores, three ton capabilities with potential for 1% protein advantage over Anza. also has great forage values and good milling qualities. **6000 lbs. to 6500 lbs yields**

PATWIN– Hard white spring wheat, is a new University of Davis line that has good resistance to known stripe rust and great protein capabilities. Short statured. **3 ton plus yields**

OTIS– Exceptionally tall, leafy, hard white wheat. Otis is about 10 to 12 inches taller then most other varieties sold, increasing forage yields and also having three ton capabilities for grain.

BLUEBALE— These forage blends are the highest yielding, with excellent feed values. All oats in blend are PVP Certified exclusive materials, which are not available to any other seed companies. These Oats are also sold separately for the hay market for there exceptional grain, forage advantage.

2008 yields were as high as 26 ton to the acre
